PROFESSIONAL EXPERIENCE

The Depository Trust & Clearing Corporation (DTCC)

Liquidity Product Management Intern

Jersey City, NJ

Jun 2020 – Aug 2020

- Analyzed last 36 months of “option expiry liquidity need” to improve forecasting models and to refine market shock methodology
- Automated liquidity threshold breach reporting by using a python script resulting in 8 hours of time savings per day for my team
- Managed intraday liquidity need reporting of the largest members by generating custom reports for the executive leadership team

Cisco Systems

Product Management Intern

San Jose, CA

Jun 2019 – Aug 2019

- Designed an executive customer health dashboard to track feature requirements and the efficacy of new capabilities for products
- Researched and analyzed long term business trends for transitions into Software as a Service (SaaS) model in enterprise networking
- Conducted detailed investigation on 5 companies to produce a recent IPO and M&A analysis summary impacting Cisco's business

FirstClass

Co-Founder

San Francisco, CA

Jun 2018 – Oct 2018

- Co-founded a startup focusing on decreasing customer acquisition costs for small businesses and enhancing customer experience
- Modeled a subscription based service that provides customers with priority lines, discounts, and rewards at restaurants in network
- Examined the mobile ordering, online reservation and customer rewards systems in small business to identify the value proposition

San Jose Housing Department - Rent Stabilization Program

Policy Analyst Intern

San Jose, CA

Jun 2018 – Jul 2018

- Designed educational content to protect rental rights and produced creative marketing material for the rent stabilization program
- Extracted and analyzed all relevant historical data for 10 years to help formulate eviction data trends to develop rent control policies
- Coordinated with Red Cross to conduct emergency preparedness training classes for RSP staff and to provide advice for retrofitting

LEADERSHIP AND EXTRACURRICULAR ACTIVITIES

NYU Strategic Venture Society

Venture Team Analyst

New York, NY

Sep 2019 – Present

- Pitched two company analyses, assessing competitive landscape and evaluating market size, exit opportunities, and potential risks
- Analyzed the education technology and sparkling water industry, identifying key players, trends, outlook, and growth opportunities

ForeverGreen

Founder and President

San Jose, CA

May 2016 – Apr 2019

- Initiated recycling reform in my school and contracted with a non-profit organization to provide paper recycling and composting
- Led earth day awareness drives and raised over \$2K for water bottle filling stations, and attained \$3K+ grants for Biology Garden

Karlstrom Lab at UMass Amherst

Research Assistant

Amherst, MA

Jun 2017 – Aug 2017

- Investigated Wnt and Shh signaling pathways to discern the regulation of cell proliferation and hypothalamic growth in vertebrates
- Imaged and dissected over 90 zebrafish brains to capture the effect of drug inhibitors on cell signaling to study neural development
